## New Year, New Warwick Denver

Following a comprehensive renovation of all 216 guestrooms and suites, the **Warwick Denver** is welcoming guests to check out what its completely reconfigured accommodations have to offer.

Averaging more than 425 sq. ft., the guestrooms at the Warwick Denver are spacious and now feature a more modern style with hints of rustic decor in tribute to the state of Colorado and nearby Rocky Mountains. The rooms now come equipped with high-speed WiFi, wide HD television screens, multiple connecting points for electronic devices and private outdoor balconies measuring 120 sq. ft. In the guestrooms, travelers can also find artwork hinting back at the hotel's former days as part of the Playboy Club, the first and only one in Colorado.

Located between Capitol Hill and the Downtown Commercial District, the Warwick Denver is also home to a rooftop outdoor heated swimming pool and a sun deck rooftop bar that offers panoramic views of the city and mountains.

In celebration of the guestroom renovations, the Warwick Denver has developed the *New Year, New Warwick* package, which includes overnight accommodations and the choice between one of the following amenities: overnight valet parking; two drinks daily in the hotel's Radolph's Bar; two tickets to the Denver Zoo; or an upgrade to the next room category plus 3 p.m. late checkout. Pricing for the *New Year, New Warwick* package starts at \$159 per night, while regular stays at the hotel start at \$149 per night. Book your clients by the end of February for travel throughout all of 2018 to take advantage of this offer.
